

b) Amendment to the Claims

Please cancel claims 14-25 without prejudice or disclaimer of the subject matter therein. Please amend claim 12 as follows. The status of all the claims is listed below.

Claims 1. - 11. (Cancelled)

12. (Currently Amended) A plasma treatment apparatus comprising:

a plurality of reactors each having an evacuable ~~inside~~ interior where at least one treatment substrate is set ~~in~~, and having impedances different from each other;

a high-frequency power supply means for supplying high-frequency power into each reactor having been ~~inside~~ internally-evacuated, to cause glow discharge to take place in the reactor, wherein each of the reactors and the high-frequency power supply means are provided separably;

~~a plurality of an~~ impedance regulation means ~~provided correspondingly to the impedances of each of the reactors in order to regulate impedances~~ impedance spaced in ~~on the side of~~ each reactor and ~~in on the side of~~ the high-frequency power supply means; and

a moving means for moving the reactors.

13. (New) The plasma treatment apparatus of claim 12, wherein the substrate is a substrate for an electrophotographic photosensitive member.
